Streamline Your Permissions Requests

When you are unable to pre-authorize CCC to license re-use of your content, you have the option to use the Grant Permissions service within Rights Central to review and approve individual permission requests. This service will keep your operating costs low and your service high, producing satisfied customers. When you enroll in Grant Permissions, the service will:

- Send e-mail alerts when new permission requests are pending
- Organize the requests by program
- Offer you the ability to pre-authorize future uses as you approve a single request
- Allow you to view and analyze 12 months of historical permissions requests
- Enable you to immediately request additional re-use information from the requestor

The screenshot shows the 'Grant Permissions > Open Requests' page. It features a navigation bar with 'Open Requests' and 'Closed Requests' tabs. Below the navigation, there are links for 'View', 'Program', 'Instructions', 'Terms of Use', and 'FAQs'.
