Motion Picture License

*Educate, engage, inspire, and entertain while reducing risk of copyright infringement*

The way we communicate and consume information has changed. Increasingly, businesses are looking for creative ways to nurture talent, motivate employees, and capture the attention of prospective customers. The use of content from movies and television shows is an exciting way to convey ideas, spark enthusiasm, facilitate discussions, and draw attention to products and services.

However, in the daily rush to get things done, even well-intentioned employees may unknowingly share copyrighted material without permission to do so.
A SIMPLE SOLUTION TO LEGALLY SHOW FILM AND VIDEO IN YOUR ORGANIZATION

Copyright Clearance Center (CCC), in partnership with the Motion Picture Licensing Corporation (MPLC), developed the Motion Picture License to help businesses and their employees creatively leverage the power of video content while reducing the risk of unintended copyright infringement.
