

Introducing PaperStats™ for libraries

PaperStats™ securely tracks your serials usage statistics, so you don't have to. Simply enter your publisher admin logins and PaperStats™ delivers consolidated usage, cost and other reports directly from your publisher vendors. That same data also keeps Pubget up-to-date with your most recent holdings information. Here's how it works.

1. PaperStats™ **manages** your publisher admin logins and journal pricing information via an easy-to-use interface

2. PaperStats™ **consolidates** COUNTER compliant statistic reports across your serials' publishers and platforms

About Pubget

Pubget (www.pubget.com) is a tool for full text access to scientific research. Instead of search results linking to papers, the results are the papers.

The Pubget search cloud creates seamless content experiences for users and the libraries that support them.

Want to know more?

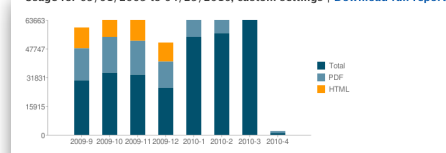

Contact us at

info@pubget.com

3. PaperStats™ instantly **delivers usage reports and cost statistics** across any date range, content type and source you choose. Usage reports can be filtered by full text, abstracts, PDFs, or Pubget search histories

The screenshot shows the 'Update report' interface. It includes a date range selector set to '01/2010 to 05/2010', a 'Today' button, and a 'Done' button. Below are sections for 'Type' (with checkboxes for 'All types', 'PDF', 'HTML', 'Abstract'), 'Through Pubget' (with 'Hide Pubget' checkbox), 'Source' (with checkboxes for 'Annual reviews', 'Ebsco', 'Highwire', 'Ingenta', 'Metapress', 'Portland', 'Psychiatry', 'Pubget', 'Scencedirect', 'Wiley', 'Wiley-archive'), and 'Find by journal' (with a search box for ISSN or title).

Usage for 09/01/2009 to 04/29/2010, custom settings | Download full report

Benefits of PaperStats™

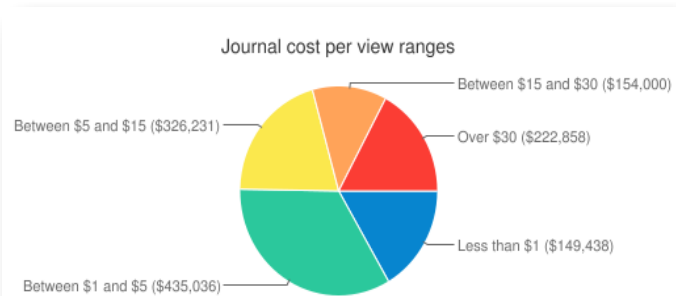

Save your library staff time

With the current workflow, library staff can spend up to 6 weeks a year accessing, consolidating and maintaining serials usage and cost information. With PaperStats'™ **easy-to-use interface and consolidated usage reports**, you get that time back.

Save your library money

Get access to previously hidden cost information! Simply upload journal pricing information into the PaperStats interface and access **cost per view information for each journal** or evaluate the usefulness of your bundles based on their historic usage, allowing you to make educated subscription renewal decisions based on actual cost data.

Pubget's Recommendation
Based on the pay-per-view price, cost of journals and prior 12 month usage, splitting this bundle could save you \$17,562.00 per year.

Current bundle cost	\$79,293.00
New optimized total	-\$61,731.00
Optimized savings	\$17,562.00

Journal name	ISSN	Source	Name	Type	Cost	Usage	Cost per view
Acta Sociologica	0001-6993	Highwire	Journal	Journal	\$1,054.00	30 views in 10 months	\$29.28
The ANNALS of the American Academy of Political and Social Science	0002-7162	Highwire	Journal	Journal	\$1,582.00	648 views in 10 months	\$2.03
American Behavioral Scientist	0002-7642	Highwire	Journal	Journal	\$1,898.00	586 views in 10 months	\$2.70
American Journal of Clinical Nutrition	0002-9165	Highwire	Journal	Journal	\$1,363.00	3268 views in 10 months	\$0.35

Make educated collection development decisions

Get an even more **in depth look** at the behavior of your users, allowing you to make subscription renewal and purchasing decisions that meet their needs by extrapolating general usage information for publishers that do not provide usage statistics by capturing usage through Pubget.
