

# RightFind™

## Enterprise

### HOW IT WORKS

Search for content using RightFind, PubMed or another discovery platform.

Get full-text articles from company subscriptions, Open Access and internal documents.

Purchase articles that aren't in your company holdings.

See the rights you have to share that content.

Track content usage and spending to inform future purchases.

The **RightFind™ Enterprise** content workflow solution from Copyright Clearance Center (CCC) connects your colleagues to the full range of high-value copyrighted information they want — anytime, anywhere. Advanced administrative features offer the ability to customize the solution to meet the unique needs of your employees, as well as sophisticated usage and spending analytics tools that provide valuable insight into what published information matters most to your organization. RightFind also integrates seamlessly with CCC's Annual Copyright License to make copyright-compliant collaboration easier. The result? You save money by accelerating the flow of research, maximizing the value of your subscriptions and streamlining your information management operations.

#### THE RIGHTFIND CONTENT WORKFLOW SOLUTION

- **Streamlines research**
- **Simplifies copyright compliance**
- **Saves you money**
- **Gives you the time and tools to manage content more efficiently**

## FEATURES AND BENEFITS

### Speed up innovation with faster content access.

RightFind searches across your subscriptions, Open Access sources and internal electronic and print collections to get full-text articles to employees faster. If the article users want isn't in your holdings, they can buy it on the spot from RightFind's proprietary searchable database of over 60 million scientific, technical and medical (STM) citations. Employees also benefit from up-to-the-minute access to newly-published research via the solution's RSS feeds and alerts.

RightFind Enterprise includes PDF Direct™, which enables you to go beyond traditional link resolvers to make full-text documents instantly available to employees. By offering seamless content authentication through RightFind, PDF Direct allows users to view full-text PDF documents with a single click making linking issues a thing of the past and removing the need to work with a separate link resolver provider.

### View your license rights instantly.

RightFind works with your CCC Annual Copyright License to show exactly how you and your colleagues can share published material. Our rights management technology is the only source for direct, accurate information about your CCC text license rights.

RightFind Enterprise accommodates both global subscriptions and site-specific licensing allowing you to control access to content down to the individual user.

### Seamless integration in users' workflow.

Employees can search within RightFind to find the articles they want, or use another search and discovery platform such as PubMed, Ovid or SciFinder. RightFind also offers OpenURL integration with select platforms, as well as a robust set of Application Programming Interfaces (APIs) to support integration with third-party products.

### Collaborate with colleagues.

RightFind was designed with collaboration in mind with tools for storing, organizing, and tagging articles by project, team or geography. User-defined libraries allow employees to follow, share, rate, review and comment on content — all while managing copyright compliance.

### Make data-driven content decisions.

To help you track spending and content usage, RightFind gives you real-time analytics available at your convenience. See what published material employees use most by geographic location, department or individual employee to prioritize future content purchases.

## About CCC

CCC is a leading global rights-clearing technology organization that provides solutions that simplify compliance for content users, promotes the work of creators and supports the principles of copyright. A rights broker for the world's most sought-after journals, books, blogs, movies and more, CCC makes it easy for businesses and academic institutions to use, share and store copyrighted material while compensating content creators for their works. With its international subsidiary, RightsDirect, CCC serves more than 35,000 customers and 12,000 publishers around the world.
