RightFind® Enterprise

*The fastest way to find, manage, and collaborate on content*

With an average 8,000 scientific articles published every day, finding relevant, trusted information and staying on top of the latest research isn’t easy. Without fast, secure access to this vital published content, researchers cannot do their jobs effectively, slowing the pace of innovation.

RightFind Enterprise provides immediate access to scientific literature and data anytime, anywhere, enabling faster discovery and insights and strengthening copyright-compliant collaboration. A simplified user experience replaces multiple information tools with a single, comprehensive solution, and helps information managers demonstrate multi-source content ROI in minutes.

RightFind Enterprise integrates seamlessly with CCC’s copyright licenses to make copyright-compliant collaboration easier. The result? You accelerate the flow of research, maximize the value of your content investments, and streamline your information management operations.
POWERSFUL CAPABILITIES TO ACCESS, TRACK, MANAGE, AND COLLABORATE ON CONTENT

- **Fast Document Delivery:** RightFind Enterprise delivers over 1.5 million documents annually, with the quickest document turnaround time in the industry. Nearly all orders are delivered within 24 hours and the vast majority are delivered instantly.

- **Robust Scientific Literature Catalog:** RightFind Enterprise’s proprietary database comprises the world’s largest collection of scientific, medical, and technical content. Users can search across 120 million citations and 18 million full-text records, 18,000 open access journals, and hybrid open access articles from more than 20 publishers.

- **Seamless Workflow Integration:** RightFind Enterprise supports a range of existing workflows, including OpenURL links from users’ preferred search and discovery tools, QuickCheck bookmarklets to request content from any website, an embedded search widget to launch RightFind Enterprise searches from your organization’s internal websites, the Chrome extension to quickly request content from Google Scholar, PubMed, SciFinder, or your preferred search tool, and RESTful APIs for application integration.

- **Shared Libraries:** RightFind Enterprise facilitates copyright-compliant collaboration within teams, from simple workspaces to highly customized content workflows based on role, (e.g. Pharmacovigilance, Medical Affairs, competitive intelligence, regulatory, and more).

- **Flexible Administrator Features:** RightFind Enterprise provides flexible tracking fields, billing options, cost controls, and notifications for the entire company, and at a granular level such as division, department, or team to support an organization’s specific structure and workflows.

- **Powerful Content Usage Analytics:** RightFind Enterprise includes robust reporting to monitor content usage and spend across all users and organization levels with over 100 customizable fields providing the data you need.

- **Simplified Copyright Compliance:** RightFind Enterprise works with your CCC/RightsDirect Copyright License to show exactly how you and your colleagues can share and reuse published material. RightFind Enterprise accommodates both global subscriptions and site-specific licensing, allowing you to control access to content down to the individual user.

WHY RIGHTFIND ENTERPRISE?
More than 260 organizations, from small biotechs to global enterprises, in 113 countries use RightFind Enterprise to find, share, and manage content.

With RightFind Enterprise you can:
- Find relevant information with semantic search and on-the-fly semantic enrichment of full-text documents to turn information into knowledge.
- Gain deep insight into content usage to make data-driven decisions.
- Support copyright-compliant collaboration in a wide range of workflows to drive innovation.
- Meet the evolving needs of content users across the organization with scalable and flexible configuration options.
