Multinational License

*Extend your Annual Copyright License coverage to employees around the world*

Copyright laws vary widely from country to country, making compliance a challenge especially when you have employees located all around the world. These challenges include the lawful use and sharing of content among employees within countries, in different countries and scattered among corporate subsidiaries. What’s more, copyright compliance at the global level is further complicated by the vast amount of easily accessible content found online.

Your organization invests in the valuable content your global employees need through subscriptions and purchases, but even so, there are gaps and inconsistencies in rights coverage that put your company at risk. Without a licensing solution in place that bridges those gaps across your entire organization, employees based outside the U.S. may be inadvertently putting your organization at risk of copyright infringement. With the Multinational License, Copyright Clearance Center (CCC) makes it easy for you to ensure these employees are appropriately licensed and copyright compliant.
A COMPLIANCE SOLUTION FOR EMPLOYEES WORLDWIDE

As the Reproduction Rights Organization for the U.S. and a member of the International Federation of Reproduction Rights Organizations (IFRRO), CCC understands the intricacies of copyright law and licensing at the global level.

The Multinational Copyright License extends the coverage of your Annual Copyright License to your employees located outside the United States. Employees worldwide get access to a single, consistent set of global rights across an extensive repertory of titles that complements your company’s existing publisher agreements, alleviates inconsistencies in rights coverage, facilitates efficient collaboration, and simplifies copyright compliance.

REDUCE SPEEDBUMPS TO COMPLIANCE

The Multinational License creates efficiency and saves resources by reducing time spent pursuing and negotiating individual permissions. There is no need to obtain individual permissions from the thousands of rightsholders represented in the Multinational Copyright License repertory.

INNOVATIVE TOOLS INCLUDED

No matter where your colleagues are located, Copyright Clearance Center’s RightFind® Advisor tool allows them to quickly confirm their rights coverage your company’s Multinational Copyright License — all without leaving their workflow.

All uses under the Annual Copyright License are subject to the general restriction that it does not include any right to create a library or collection intended to substantially replace a user’s need for a particular Work — meaning that the Annual Copyright License complements, and is not intended as a substitute for, subscriptions and purchases.

*The license does not cover the external display of copies on mobile devices as part of the user’s systematic sales or marketing activities.
