Managed Knowledge Services

Connecting you with skilled information professionals

One way R&D-intensive organizations can maintain a competitive edge is by hiring information professionals who can search, manage, and disseminate various types of business-critical information. However, finding highly skilled information professionals can be time consuming, and in some geographic markets very challenging. Research suggests some companies spend up to 40% of their time on tasks that do not generate income, such as hiring.¹

Through Managed Knowledge Services, Copyright Clearance Center and its subsidiary, RightsDirect, provide highly skilled information experts matched to your organization's unique needs and culture and help you achieve your strategic business objectives.

"The CCC managed knowledge service supports our organization's goals by managing resources, responding to customer questions, and assisting with daily operations. They play a critical role in helping us meet the demands of our company. We value their expertise and professionalism."
