R&D-intensive companies must accelerate research and drive innovation to compete effectively.

Knowledge Managers invest in a wide range of resources to ensure their organizations stay on the cutting edge. But to maximize the value of their digital information assets, organizations must eliminate data silos to make content more discoverable and accessible and personalize the search experience for each knowledge worker.

Copyright Clearance Center, and its subsidiary RightsDirect, are pleased to offer RightFind Navigate. This solution breaks down inefficiencies caused by information silos, reveals connections, and drives innovation. RightFind Navigate securely unifies licensed content, publicly available data sources, and internal proprietary information through an open ecosystem of knowledge tools to maximize return on content and data investments.

RightFind® Navigate

 Accelerate the return on content and data investments to drive innovation

RIGHTFIND NAVIGATE BENEFITS:

→ Get more value from your existing investments in content, data sources, and vocabularies

→ Personalize the search experience to find relevant content faster

→ Give users a unified search experience that displays the data most meaningful to them

→ Accelerate insights by revealing connections to enrich the R&D pipeline

→ Connect your data sources in a single unified ecosystem to increase discoverability
KEY CAPABILITIES

Unify data sources
Eliminate data silos to increase awareness of content resources and maximize the value of your digital information assets with flexible pre-built or custom data connectors that enable fast, secure, seamless access to content and data, using an integration approach that meets your organization’s unique needs.

Personalize the search experience
Find relevant content faster. RightFind Navigate uses explicit and implicit personalization models that incorporate user activity across the RightFind suite and machine learning to deliver recommendations to each user to accelerate research. Users also have the flexibility to turn personalization on and off.

Smarter information discovery
Perform aggregated search via a single unified search experience that displays the data most meaningful to users and enables connections across multiple data sources.

Enable insights
Explore information relationships with semantically enriched, dynamic visualizations to accelerate insights by revealing connections and enriching the R&D pipeline with new ideas.

WHY CCC?

At CCC, we help companies manage vast amounts of published content and proprietary internal information and data. We have a proven track record of working with a wide range of companies, including content providers and technology partners, to unify data sources and make content more discoverable. We are experts in processing data from nearly all major publishing houses and metadata aggregators accounting for more than 120 million unique records per year across a diverse set of industries.

Recommendations in Navigate

Copyright Clearance Center (CCC) builds unique solutions that connect content and rights in contextually relevant ways through software and professional services. CCC helps people navigate vast amounts of data to discover actionable insights, enabling them to innovate and make informed decisions. CCC, with its subsidiaries RightsDirect and Ixxus, collaborates with customers to advance how data and information is integrated, accessed, and shared while setting the standard for effective copyright solutions that accelerate knowledge and power innovation. CCC is headquartered in Danvers, Mass., with offices across North America, Europe and Asia. To learn more about CCC, visit www.copyright.com.

RightsDirect provides content workflow, document delivery and rights licensing solutions that allow companies around the world to use, share and store content while simplifying copyright compliance. Working with partners around the world, RightsDirect offers sophisticated solutions tailored to the needs of national and global organizations. RightsDirect is a wholly-owned subsidiary of Copyright Clearance Center based in Amsterdam with presence in Tokyo and Munich.
