

RightFind Enterprise

The fastest way to access, manage,
and collaborate on scientific literature

With an average 8,000 scientific articles published every day, finding relevant, trusted information and staying on top of the latest research isn't easy. Without fast, secure access to this vital published content, researchers cannot do their jobs effectively, slowing the pace of innovation.

RightFind Enterprise provides faster discovery with immediate access to scientific literature and data and strengthens copyright-compliant collaboration. With a streamlined implementation approach, organizations get up and running quickly, and RightFind makes it easy to demonstrate content ROI in minutes.

RightFind Enterprise integrates seamlessly with CCC's copyright licenses to make copyright-compliant collaboration easier. The result? You accelerate the flow of research, maximize the value of your content investments, and streamline your information management operations.

How it works

Search for content using RightFind, Google Scholar, PubMed, SciFinder, PubChem or other preferred search tools.

Get secure and direct access to full-text articles and simplify the authentication process for company subscriptions, open access, or internal collections.

Access the most comprehensive collection of scientific, technical and medical content to purchase unsubscribed articles.

Use shared libraries to collaborate compliantly within teams, from simple workspaces to highly customized content workflows based on role.

Report on content usage and spending to make data-driven content investments.

Manage content including subscriptions, Open Access sources, document delivery, and internal collections.

Powerful capabilities to access, track, manage, and collaborate on content

- **Fast document delivery:** RightFind Enterprise delivers over 1.9 million documents annually, with the quickest document turnaround time in the industry. Nearly all orders are delivered within 24 hours and the vast majority are delivered instantly.
