

## **Sample communication: to introduce your Motion Picture License to employees**

Did you know that the use of content from movies and TV programs at work often requires permission from the copyright holder?

To make it easy for you to legally show scenes and full-length motion pictures and TV programs in sales meetings, training sessions, presentations and more, we've purchased a Motion Picture License from Copyright Clearance Center (CCC).

Visit CCC's [Customer Resource Center](#) for specifics on the license and to access helpful tools for selecting the right movie scenes, instructions for embedding film and TV show content in your presentations and much more.

For more information please contact [company contact] at [email or extension].
