Copyright Clearance Center Signs SAGE as 100th Participating Publisher for Get It Now Academic Service

Award-Winning Solution Also Features New Customizable Dashboard

Danvers, Mass. – [Copyright Clearance Center, Inc.](http://www.copyright.com) (CCC), a global licensing and content solutions organization, has announced [SAGE](http://www.sagepub.com) as its 100th publisher participating in its award-winning Get It Now article delivery service. Other publishers recently added include [Journal of Neurosurgery Publishing Group](http://www.jneurology.com), [Nova Science Publishers, Inc.](http://www.novasapublishers.com), [Thieme](http://www.thieme.com), and [Wageningen Academic Publishers](http://www.wageningenacademic.com).

CCC has also announced a new, customizable dashboard for Get It Now. Developed based on customer requests and feedback, the Get It Now Dashboard allows librarians and staff to easily manage and track spending for article purchases, generate real-time usage reports, and quickly configure the service for their specific needs.

“Using the Dashboard, librarians can set a spending limit or timeframe for articles purchased through Get It Now and automatically receive notification when nearing their limit,” said Tim Bowen, CCC’s Director, Academic Products & Services. “With millions of articles available from 100 publishers, our new Dashboard allows librarians to easily track and manage article purchases to ensure they stay within their budget and policy.”

A cost-effective service that gives library patrons and staff instant access to valuable journal content from leading publishers, Get It Now is offered in two versions. The unmediated model makes use of an OpenURL link resolver, enabling patrons to independently search, find and receive full-text articles in minutes. The OCLC ILLiad-based mediated model shifts the responsibility of ordering articles to the librarians, providing them greater oversight of article orders and budget. A hybrid offering is also available, featuring a combination of the benefits of

both versions of the service. Readers of [University Business magazine](#) selected Get It Now as a 2013 [Top Product](#).

About Copyright Clearance Center

[Copyright Clearance Center](#) (CCC), a leading global rights-licensing technology organization, provides solutions that simplify compliance for content users, promotes the work of creators and supports the principles of copyright.
