WHAT'S NEW WITH MARKETPLACE?

Marketplace: October 2020 Release

We are pleased to announce the Marketplace release, which released on 10 October 2020.

Marketplace is designed to enable buyers to purchase rights and content in a single destination and deliver best-in-class services to strategic accounts, repeat buyers and drive-by buyers. As part of this strategy, we are preparing to offer all academic transactional services on Marketplace. This initiative is underway and is scheduled for release in 2021. In addition to these efforts, we have introduced enhancements to Marketplace in this release, including:

- **Improvements to Projects and Workflow:** In order to continue to improve the experience for buyers, we have enhanced the project functionality so that a project a user is working on will remain selected within their working session. This prevents them from selecting the same project for each request. Maintaining a project a buyer is working on saves time and prevents them from having to redo any requests in the event they forget to select a project.
- **Create Project:** The 'Create Project' option is now displayed as a separate link outside of the dropdown menu. The option to create a new project presents buyers with a text field which overrides the dropdown menu, eliminating potential confusion buyers may experience when a text field and project dropdown appear simultaneously.

The screenshot displays the Marketplace interface. At the top, the Copyright Clearance Center logo and 'Marketplace™' are on the left, while user 'Aaron Reid', a cart with 6 items, and links for Help and Live Chat are on the right. Below the header, a search bar shows 'All' and '978-0-333-28171-0' with a search icon and links for 'Advanced Search' and 'Search Tips'. A '< Return to Search' link is on the left. The main content area features a book listing for 'Mathematics I' with details: Publication type: Book, ISBN-13: 978-0-333-28171-0, Publication Year: 1981, Publisher: PALGRAVE MACMILLAN, Rights holder: APCHQ (Association provinciale des constructeurs d'habitation du Quebec), Language: English, and Country: United Kingdom of Great Britain and Northern Ireland. A 'View all details' link is present. Below the listing, a 'Request Details' tab is active, showing a form with two columns. The left column, 'Request Details', includes 'Type of Use (TOU)' (set to 'Republish in a book'), 'Portion Type' (set to 'Make a selection'), 'Format (select all that apply)' (set to 'Make a selection'), and 'Who will republish the content?' (set to 'Make a selection'). The right column, 'Additional Details', includes 'Project Name' (set to 'Make a selection') with a '+ Create Project' link below it, and 'Distribution' (set to 'Make a selection'). Other fields like 'Translation' and 'Copies for the disabled?' are also visible with 'Make a selection' options.

Additional Details

Project Name Make a selection

[+ Create Project](#)

Project Selection Clear: Buyers are now able to clear a selected project if they decide a project is no longer required. When a project is selected, the buyer is presented with a ‘Clear’ option.

Project Name My New Project

Recap of June 2020 Release

The June release of Marketplace included the following improvements:

- **Three New Types of Use:** Buyers can purchase rights to report interlibrary loan (ILL) borrowing, distribute via commercial document delivery, and photocopy for library reserves.
- **Editing of Special Requests:** Buyers can edit special requests within Manage Account.
- **Fixed-Price Promotional Codes:** Customers can apply fixed-price promotional codes to items in their carts.
