Annual Copyright License

Copyright Drives Innovation

The Annual Copyright License enables teams to collaborate more easily using content from a wide range of sources, simplifying copyright compliance, driving innovation, and providing resources that educate employees about the importance of copyright.

Given the intense pressure to stay ahead of the competition, applying the latest news, market intelligence, and customer trends is fundamental to the success of any business. Companies rely on the efficient exchange of information, from research and industry news to workforce trends and legislative reform. They subscribe to or buy the content their employees need, but there are still gaps in coverage that could present risk to the company.

CCC has supported content users for decades by providing efficient, harmonized licensing solutions that cover their internal uses of content. The Annual Copyright License complements an organization’s publisher agreements and subscriptions to enable teams to collaborate more easily using content from a wide range of sources, authorizes the internal-only use of lawfully acquired content with artificial intelligence (AI) systems, simplifies copyright compliance, drives innovation, and offers a library of resources to educate employees about the importance of copyright.

“The top benefit is the peace of mind that we’re in compliance with copyright laws. Having the Annual Copyright License also gets back to integrity truly being a core value of our company.”
