# The Get It Now and Ex Libris Rapido Integrated Solution

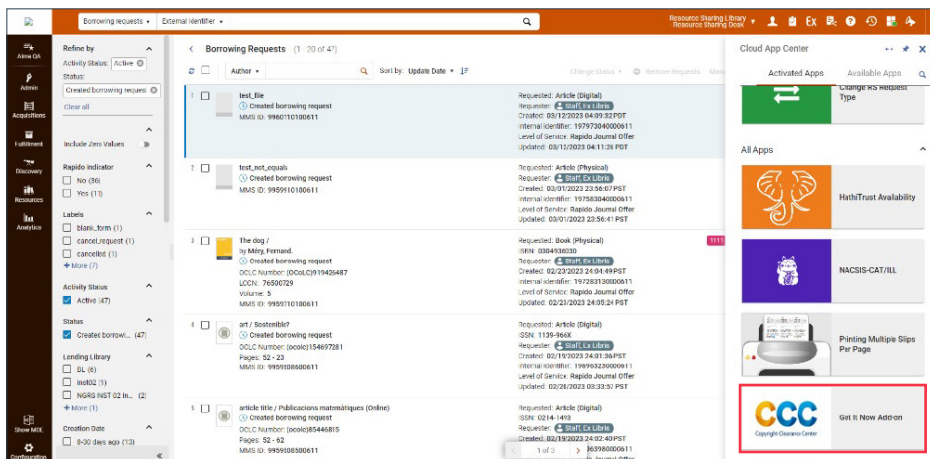

## An efficient way to purchase high-quality full-text articles in the Rapido workflow

CCC (Copyright Clearance Center) and Ex Libris, part of Clarivate, have expanded their longstanding integration to create the Get It Now Add-on for Rapido. Get It Now is CCC's award-winning article delivery service that provides faculty, students, researchers, and staff with full-text articles from unsubscribed journals — 24 hours a day, 7 days a week. Rapido is an integrated digital borrowing solution that acts as an extension of the library collection. With Rapido's automation of the borrowing and lending processes, staff manage a higher volume of requests with less effort.

With Get It Now, librarians can purchase high-quality article PDFs from over 19,000 leading journals for immediate delivery. And, with the free and easy-to-use Get It Now Add-On, library staff can purchase articles within Rapido and deliver them directly to patrons.

### Rapido and Get It Now Integration Workflow

In the borrowing request task list, the library staff member accesses the Cloud App center in Rapido and selects the Get It Now Add-on.

## Benefits of the integrated solution:

### Purchase articles in your workflow

If the requested article is available through the Get It Now Add-on in Rapido, the library staff member can review pricing and purchase the article with just two clicks.

### Maintain control

Get It Now is mediated by library staff, so you choose when to use the service based on patron needs, your policies, and budget.

### Meet urgent content requests

Many Get It Now articles can be fulfilled in under two minutes, day or night.

### Academic pricing

Get It Now articles are priced by publishers with academic library budgets in mind.

### No content dead ends

The Rapido/Get It Now integration will keep your patrons happy enabling them to get the articles they need, when they need them.

### Avoid CONTU restrictions

Get It Now is your best choice for articles once you exceed the "rule of five" since you will receive a high-quality PDF in minutes without having to report copyright fees.

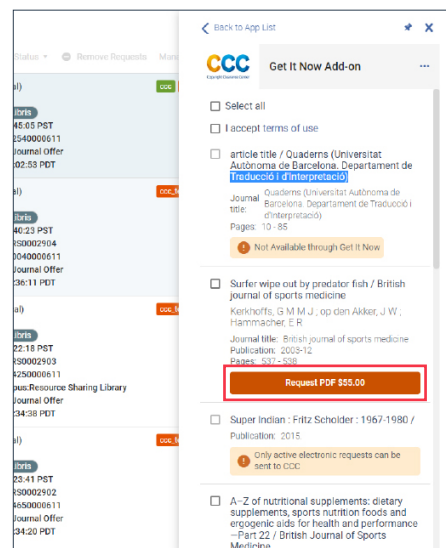

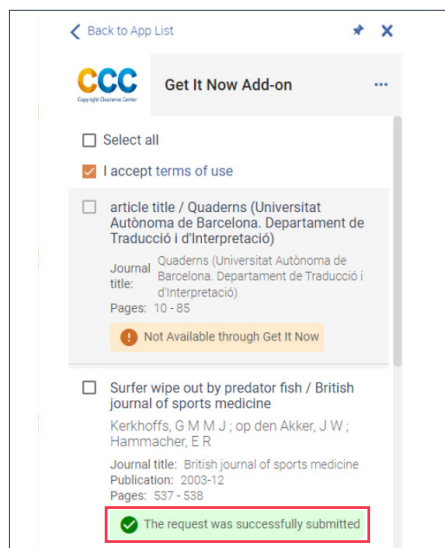

### Request it, Get it, Share it

With Rapido, Get It Now, and CCC's Annual Copyright License for Higher Education, patrons and librarians have an efficient and automated solution to request, obtain, and legally share copyrighted content for course materials and scholarship.

## Getting started with the CCC Get It Now Add-on in Rapido

To take advantage of the CCC Get It Now Add-on in Rapido, you must first sign an agreement with CCC and create a Get It Now account. If you have any questions or would like a Get It Now agreement sent to you, please email [getitnowsupport@copyright.com](mailto:getitnowsupport@copyright.com). Information on how to use the Get It Now Add-on can be found [here](#).

For each record in the task list, article availability is presented in the Get It Now Add-on. If the article is available for purchase via Get It Now, the price is displayed to the library staff member.

To request the content through Get It Now, the library staff member then selects the checkbox for each article they desire and clicks the "I accept terms of use" checkbox. The request is then sent to CCC for processing and an order confirmation is displayed.

Once processed by CCC, an email containing a link to the requested article is sent to the library staff member specified in the Get It Now Add-on. The staff member forwards the article fulfillment email to the patron where it is available 120 days for viewing or downloading.

### About CCC

A pioneer in voluntary collective licensing, CCC (Copyright Clearance Center) helps organizations integrate, access, and share information through licensing, content, software, and professional services. With expertise in copyright, information management, artificial intelligence, and machine learning, CCC and its subsidiary RightsDirect collaborate with stakeholders to design and deliver innovative information solutions that power decision-making by harnessing information from a wide variety of data sources and content assets.
